

PROSERIES

DIAMOND TOOLS

FLAT SAW

ZENESIS™ V2 SERIES CONCRETE

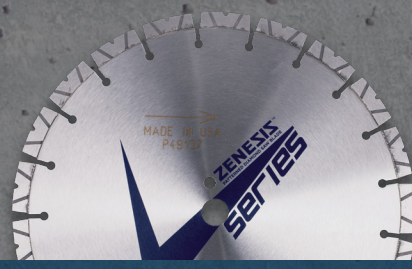

- Our latest pattern (codename: "R") with more diamond for longer life
- 40, 45 or 50% segment diamond concentration
- 50-80hp ICE saws, 30-40hp electric saws
- Multiple bonds available
- 12mm and 15mm segment heights available

ZENESIS™ VS SERIES CONCRETE

- Fewer diamonds, soft bonds for fast cutting speed
- 30% segment diamond concentration
- 30-50hp ICE saws, 15-30hp electric saws
- Multiple bonds available
- 12mm segment height

ZENESIS™ V SERIES CONCRETE

- Balance between cutting speed and life
- 35% segment diamond concentration
- 40-60hp ICE saws, 20-30hp electric saws
- Multiple bonds available
- 12mm and 15mm segment heights available

X4000 X2000 X1000 CONCRETE

- 12mm (.472") segment height
- Utilizes our highest quality diamond for maximum performance
- Highly recommended for machines **65HP and larger**

- 10mm (.394") segment height
- Balance between cost and performance **(not for machines over 65HP)**

- 10mm (.394") segment height
- Most economical version of our professional series blades **(not for machines over 65HP)**

- 10mm (.394") segment height
- Utilizes our highest quality diamond for maximum performance in cutting asphalt
- Highly recommended for machines **65HP and larger**

X4000 X2000 X1000 ASPHALT

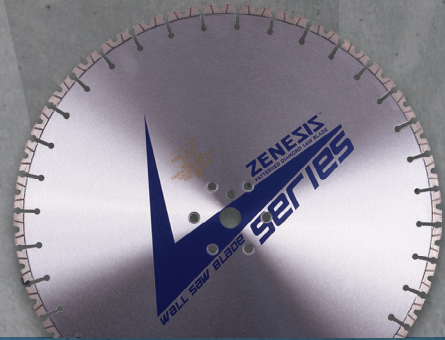

- 10mm (.394") segment height
- Balance between cost and performance **(not for machines over 65HP)**

- 10mm (.394") segment height
- Most economical version of our professional series blades **(not for machines over 65HP)**

CUSTOM SPECS (FOR EXAMPLE: ZENESIS HARD ROCK) FOR EVERY AGGREGATE AVAILABLE, CALL YOUR LOCAL SALES REP FOR DETAILS

WALL SAW

V SERIES BLADE CONCRETE

- 12mm segment height
- ZENESIS™ patterned diamond
- Laser welded

X1000 BLADE CONCRETE

- 10mm segment height
- Available in 3 bonds
- Can be used on hydraulic hand saw

MULTIPLE ARBOR/FLUSHCUT CONFIGURATIONS AVAILABLE TO FIT ANY WALL SAW CAN MANUFACTURE UP TO 72" DIAMETER BLADES

RING SAW

ZENESIS™ CONCRETE/MASONRY

- 10mm segment height
- ZENESIS™ patterned diamond technology
- Available in various bonds and sizes

X200 CONCRETE/MASONRY

- 8mm segment height
- Heavy duty blade
- Available in various bonds and sizes

DRIVE WHEEL

- FREE with purchase of any ring saw blade

WIRE SAW

PREMIUM BSL WIRE HARD CONCRETE

- 10.5mm & 11mm bead width
- 48 beads per meter
- Dry or wet sawing

ECONOMY WIRE CONCRETE

- 10.5mm bead width
- 40 beads per meter
- Wet sawing only

WIRE CRIMP CONNECTORS AVAILABLE

CORE BITS

ZENESIS™ V SERIES HARD CONCRETE

- Our most aggressive core bit segment design
- Tall 12mm segment height
- ZENESIS™ pattern diamond technology

ZENESIS™ SERIES HARD CONCRETE

- Designed for the most demanding applications: heavily-reinforced, high PSI concrete
- 10mm segment height
- ZENESIS™ pattern diamond technology

2" - 36" DIAMETER BITS AVAILABLE IN CUSTOM LENGTHS
