

# ALL-NEW WET CORE BITS

from **Diamond Vantage**

Diamond Vantage is proud to introduce our newest high speed wet bit in our core bit lineup. Our new premium segmented and premium turbo segmented core bits have a softer bond compared to our existing X2 and ZZ bits and will give you faster speed at the same price.

We tested our bits against some of the top brands in the industry. **Our bits out beat all of the competition, that's over 10 different core bits!**

All tests were done with 3" bits using Milwaukee motor, # 4079, 600 rpm. Drilling 12" holes in 5,000 psi concrete with 3/8" rebar.
