

DESIGNED TO CUT AT A MOMENT'S NOTICE!

X200-ACR*

Side abrasion is excellent for removing burrs resulting from the initial cut. Also, the abrasive aids in cutting faster with a cleaner cut in salvage work.

X400*

Unique segment formulation creates fully exposed large diamond for very aggressive and fast sawing action.

The new **ALL CUT™** blades from Diamond Vantage tackle the most demanding sawing jobs by cutting a wide array of materials. Whether it's a quick-turn contracting job or an emergency fire or rescue situation, use this blade when quick action is important. Team the **ALL CUT™** blade up with the **Solo®** high speed saw for a winning combination!

*While this blade can cut steel, it was not designed for heavy steel cutting application. For demanding metal-working applications, please inquire with our sales staff for metal application blades. Solo® is a registered trademark of SOLO Kleinmotoren GmbH.
