DRESSING STONES.**

## DRESSING STONE

- Keep your tile and stone blades at their premium performance level with abrasive dressing stones from Diamond Vantage<sup>®</sup>.
- Today's natural and man-made materials can quickly glaze even the best diamond blade.
- If you wait for a blade to become dull, it can cause serious damage to your material and even damage the blade.
- Coarse sharp abrasives in the dressing stone quickly expose new diamonds to keep your cuts clean and eliminate blow out at the beginning or end of a cut.
- For those materials that are hard, dense, and difficult to cut, we recommend dressing the blade frequently.
