

# ALL-NEW PCD CUP WHEELS

**BIGGER  
PCDS.  
BIGGER  
PERFORMANCE.**

The 2nd generation PCD Cup Wheel from Diamond Vantage feature larger PCDs for longer life when removing floor coatings, including epoxies and glues. Diamond Vantage also offers PCD cup wheels with a protective segment, to keep the smaller, more aggressive PCD from becoming dislodged. Polycrystalline diamonds are ultra rough and are great for removing coating without loading up or smearing. These cup wheels can be used wet or dry, and are available threaded (5/8-11) or unthreaded with a bushing (7/8-5/8).

2ND GENERATION PCD CUP WHEEL

PART NUMBER	SIZE	# of PCDs	ARBOR SIZE
04CPCD2	4"	4	7/8-5/8
04HPCD2	4"	4	5/8-11
