

ZENESIS™

BLACK CORE BIT

FASTER CORING SPEED
LONGER LIFE

The black ZENESIS™ Core Bit utilizes the **ZENESIS™ Patterned Diamond Technology**, the first in the world to methodically apply diamonds in an exclusive pattern to achieve **faster coring speeds** and **longer life** of the tool. The black ZENESIS™ Core Bit is designed to core through hard aggregate, medium to heavy steel reinforcement and variety of cured concrete and steel applications. The black ZENESIS™ Core Bit will not only last longer than the conventional bits but will do the job faster.
